

YOUTH FRIENDLY DOCTOR PROGRAM 2020 AMA (WA)

The Youth Friendly Doctor (YFD) program is designed to provide the medical professional with the skills and knowledge to remain up to date with the most pertinent issues affecting young people and how to best support these issues.

The program is developed and delivered by health professionals with specific skills in the area of youth health, providing the most current information.

To receive Youth Friendly Doctor status, both core units and one elective unit must be completed. RACGP CPD points and ACCRM have been applied for.
