

# Tax and Accounting Services for Private and General Practice

Tailored to meet the needs of doctors working in private and general practice, the Australian Medical Association (WA) Tax and Accounting service provides professional advice delivered by certified accountants and tax advisors specialising in the area of medical tax and accounting.

The benefits of utilising our services include:

- **Technology** – the latest Cloud based services, integrated with your existing Practice Management software.
- **Efficiency** – we save you valuable time.
- **Control** – we organise payments and payroll.
- **Expertise** – we provide your medical practice with detailed insights on key financial performance metrics.
- **Experience** – staffed with fully qualified and highly experienced bookkeepers.
- **Compliance** - we work with you to create your quarterly BAS returns; submit one touch payroll; pay share of billings to self-employed doctors, and complete information to your tax accountant.
- **Flexibility** – offer various accounting options to suit your medical practice requirements.

## Tax and accounting fees

The AMA (WA) offers a simple and transparent fee structure to suit a range of business needs, from a small practice to a full bookkeeping service for large medical practices.

We analyse your current accounting systems identifying any limitations and inefficiencies.

## Tax accountant service

The AMA (WA) Tax Accounting service can be independent of bookkeeping and provides you access to specialist advice for even the most complex personal tax requirements.

Whether you are a Private Practice owner or a doctor earning a simple share of billings, our tax accounting service can ensure that your tax obligations are professionally managed.
